Hindenburg's Army Penetrates To Within Mile Of Oise River

MOVEMENT TO RESTORE CZAR TO THE THRONE

Berne, June 11.—The reported movement in Russia for restoration of the Czar is increasing, according to reports reaching here today. People are praying in the churches for his return, it is said. A newspaper published secretly in Petrograd urges his restoration. Several attempts have been made on the life of Nikolai Lenin, the Bolshevik premier. The latest one occurred June 2, it is reported, when the driver of his coach was shot by a hidden assassin.

BERLIN CLAIMS TO HAVE CAPTURED 8,000 PRISONERS

London, June 11.—The French war office today admitted loss of Mery, Belloy and St. Maur and said the enemy had gained a footing in Marquise and Elincourt. Berlin claimed the capture of eight thousand prisoners and some guns on the new front. The taking of prisoners northwest of Chateau Thierry where American forces are engaged are also claimed.

COLUMBUS INVENTOR DIES SUDDENLY

Columbus, June 11.—Harry Spencer, inventor, was stricken with heart disease at his home here last night and died an hour later. Harry was widely known as the inventor of cash register devices, parts of computing scales and a time lock, car coupling and the Hallwood Paving Block.

BOMBARDMENT OF PARIS CONTINUES

Paris, June 11.—The long range bombardment of Paris was resumed today.

WHISKEY WILL BE ALL GONE IN 18 MONTHS

Owensboro, Ky., June 11.—There is much interest in Washington where a revenue measure is under consideration, and among speculators in whisky, as to the amount of spirits remaining in bond, the rate of withdrawals, and how long the liquor probably will last. The Government has been realizing since the tax on whisky was raised to \$3.20 per gallon at the rate of \$3,000,000 per annum from this source, but it has been stated that since manufacture of whisky was forbidden after September 9, 1917, the stock on hand would be exhausted in 12 to 18 months, and the government would then have to look elsewhere for the amount of revenue.

In the Owensboro or Second District of Kentucky comprising 32 counties in the Western part of the state, the whisky in bond May 31, 1918, was 11,633,779 gallons. Just a year earlier there was in bond 14,423,799 gallons. Since that date there was made and placed in bond 2,799,714, but there was withdrawn during the 12 months ending May 31, 1918 6,165,935, leaving in bond on that date, as above stated only 11,633,779 gallons.

With withdrawals at the rate of over 6,000,000 gallons per annum the stocks in Second District warehouses would last a little less than two years, but as whisky stocks throughout the country are being exhausted it is now estimated that notwithstanding "bone dry" prohibition laws in many states, the withdrawals will be heavier and the whisky in the Second District of Kentucky, which is principally in Daviess county, will not last exceeding 18 months.

In May 1918, the withdrawals were 481,000 gallons, in May, 1917, 452,594 gallons, an increase of 28,475 gallons. Preceding months in 1918 also showed an increased ratio of withdrawals. Therefore, whatever Congress or the states may hereafter do in the prohibition line it is not probable there will be much whisky left in this district at least when the sale as well as manufacture is finally forever forbidden.

U. S. TRANSPORT FIRES ON U-BOAT

An Atlantic Port, June 11.—The story of a brush between a large American transport and a German submarine off the coast of New Jersey was related last night by the officers and crew of a large Brazilian ship which escaped the same U-boat.

While about 75 miles off the New Jersey coast the undersea craft was sighted. It signalled to the Brazilian vessels to halt, but the latter's captain instead ordered full speed ahead and changed his course toward shore, in the meantime zig-zagging to insure greater safety.

It was said that the submarine was too far off to make use of a torpedo. A large vessel afterward identified as a U. S. army transport, then engaged the submarine firing several shots at the raider.

The captain of the Brazilian ship did not remain to ascertain whether the U-boat was injured. It is believed that the submarine submerged and escaped.

OVER QUARTER MILLION MEN GO IN MONTH

Washington, June 11.—Piling up a record in May for troop transport, the nation sent across around a quarter of a million men. This brought the shipments past the 70,000 mark, as officially revealed by Secretary of War Baker. In a few more weeks we will be able to announce the passing of the million mark and it is assumed he will withhold his next statement until he has reached this good round number. The secretary had intended waiting a while longer before making his announcement, but under the inspiration to a talk to French Blue Devils here, he decided to publish these figures.

Men in charge of transportation declare the U-boats have had absolutely no effect on June shipments. Their coming only made these men grit their teeth and say go-ahead and this is what they are doing. Their theory was that any relaxation in troop and supply transport would be a confession of weakness, merely playing into Germany's hand. However, more June tonnage is taken up with supplies than was the case in May. This means that the June troop figures will probably be somewhat lower than May figures, though it was stated that the advance schedule contemplated making May a banner month and June a lower one.

U. S. DESTROYERS SEARCH FOR MOTHER SHIP TO U-BOATS

Washington, June 11.—Following rumors that a large vessel, acting in the role of mother ship to the submarine, had been sighted during the sinking of the Pinar Del Rio, all sorts of navy craft which have been active in their intense search for the German U-boats redoubled their activities in an effort to find such a vessel. From Norfolk, where some of the Pinar Del Rio's crew was landed, it was reported that a gray steamer with one funnel, and weighing about 6,000 tons stood in plain sight as the submarine dispatched the American ship. Then, according to members the large ship disappeared.

SIX OHIO BOYS ON THE CASUALTY LIST

Washington, June 11.—One hundred and thirty-six casualties were reported by the war department today, divided as follows:

Killed in action, 26; three dead from wounds; seven dead from disease; three dead from accident and other causes; forty eight wounded severely; forty three wounded (degree undetermined).

Six Ohio boys were named in today's casualty list, three of them being killed in action, one dead from wounds received in action, and two being severely wounded. They are:

Killed in action:
Joe F. Frenz, 2016 Penn avenue, Canton, Ohio.

William P. McGrath, Cleveland, O.
Edward Weil, Cleveland, Ohio.

Died from wounds received in action:
Private Dewey G. Burr, Bristolville, Ohio.

Among the severely wounded:
Privates Clark E. Bunting, Montpelier, O.

Edward Snyder, Cincinnati, O.

RIGHT HAND MAN OF KERENSKY IN UNITED STATES

Washington, June 11.—With the arrival at Seattle, today, of former Russian Vice Premier Konovloff, Kerensky's right hand man, Russian officials here predicted a speedy decision as to allied plans for the combatting of Germany's eastern conquests.

Konovloff was one of three ill-fated ministers falling into Bolshevik hands after Kerensky's downfall. The other two were assassinated, but he was imprisoned in Petrograd until a serious illness caused his release. He then fled to China.

The former Vice Premier, who next to Kerensky, was the strongest man in Russia, directly after the Czar's abdication, will probably visit President Wilson.

OMINOUS QUIET ON AMERICAN SECTOR

With the Americans West of Montdidier, June 11.—The Americans within the shadow of the new German drive are waiting, ready for any blow at any time.

There is an ominous quiet in the region of Cantigny, along the line held by the Americans. Our artillery heavily gassed the German positions Sunday night but the lull fell again yesterday.

With the roar of the heavy firing in the Montdidier region always reaching them, the Americans here are constantly on the alert for some evidence of the Hun attack spreading westward to include this sector.

American patrols are continually active and some prisoners are brought in almost daily. Sergeant Burns, of the signal corps, went on a "personally conducted" tour of the Boches front trenches. He shot every German he ran across and returned safely to his own lines.

The rain sweeping this region has rendered the front positions wet and cold, in contrast to the heat of the past few weeks.

In the meantime, the greatest air activity continues along the lines, despite unfavorable weather. Fighting and bombing planes, headed for Boche territory, look like huge flocks of crows.

CONSERVATION OF LIFE AND PROPERTY KEYNOTE OF MEETING

Columbus, June 11.—Conservation of life and property will be the keynote of the four-day Fire Prevention Congress, which will open in Memorial Hall this evening, with W. H. Morrill, chairman of the fire prevention section of the war industries board, Washington, D. C., as the principal speaker. Gov. Cox, Mayor George J. Karb and William B. Wilson, secretary of labor, are also on this evening's program.

A 50-piece band of the Robbins & Myers Company of Springfield, will furnish the music for the meetings. Among those scheduled to speak on various phases of fire prevention and fire hazards are: Lewis J. Bryant, commissioner of labor, New Jersey; Powell Evans, chairman fire prevention committee, Chamber of Commerce, Philadelphia; Captain J. J. Conway, Cincinnati Salvage Corps; Dr. H. H. Brown, bureau of explosives, Washington, D. C.; Charles E. Meek, American Exchange Bank, New York City; I. G. Hoagland, New York City; W. E. Hallalieu, national board of fire underwriters; T. A. Fleming, state fire marshal of Ohio; T. P. Kearns, chief fire inspector industrial commission of Ohio; and Victor T. Noonan, safety director, Ohio industrial commission.

Round table discussions and an accident prevention conference under the direction of Safety Director Noonan will feature the congress. With the American Armies in Lorraine, June 11.—Both armies were increasingly active on the Foul front yesterday evening and last night. German guns attempted to seek out a number of American positions but were unsuccessful. Heavy rain has caused cessation of aerial activity.

ARTILLERIES ARE INCREASINGLY ACTIVE

With the American Armies in Lorraine, June 11.—Both armies were increasingly active on the Foul front yesterday evening and last night. German guns attempted to seek out a number of American positions but were unsuccessful. Heavy rain has caused cessation of aerial activity.

THE MAN WHO LEADS THE U. S. MARINES SHOWS HIS BOYS TO GENERAL PERSHING

General Pershing, at left, and Brigadier General Harbord, behind Pershing's left shoulder.

Little is heard of Brigadier General James G. Harbord, the man who is leading the U. S. Marines at the front in France. The "soldiers of the sea" under Harbord, have given the Huns a taste of fighting that will be remembered for some time. The Marines held the center of interest in the recent engagements. The photo shows General Pershing, commander of the American forces in France, on a tour of inspection of the Marines at General Harbord's headquarters.

PRESIDENT WILSON ADVOCATES PACT BETWEEN ALL AMERICAS

Washington, June 11.—Pan-Americanism, a pact of all the Americas for self-protective purposes, is advocated by President Wilson.

This developed today with the authorized publication of President Wilson's recent address to a group of Mexican editors, visiting here. Declaring the Monroe doctrine to be a case of telling Central America:

"We are going to be a big brother to you whether you want us to be or not," the President said the policy

contained nothing that protects Mexico from "aggression from us."

As a result the President declared he had observed some sister republics to the south were uneasy lest "our self-appointed protection (Monroe doctrine) might be for our own benefit and our interest and not for the interest of our neighbors."

He then revealed that he had proposed to the countries "a common guarantee that all of us will sign a declaration of political independence and territorial integrity."

SHIP BUILDING ARMY OUTNUMBERS SAMMIES OVERSEAS

New York, June 11.—If it were possible to transport the skilled artisans and wage earners who are now making ships and equipment for them to France within a week, then the American army now in France, if the common understanding of its size be correct, would find itself overmatched in numbers by these American workmen. The soldiers are fighting and the workmen are laboring for a common cause.

The estimate made this morning by the National Service Section of the Emergency Fleet Corporation, fixes the number of artisans and wage earners in the shipyards and in the industrial plants that are occupied in manufacturing machinery and other equipment for the ships at about 750,000. While, of course, the country knew something of the marvelous activity the United States is now directing in the building of ships and equipment for them this semi-official statement was made this morning, that this industry alone entails the employment of over 700,000 artisans and wage earners. This is a new industrial army that has been mobilized and trained within a year.

There may be a few submarines off the Atlantic Coast, and it is possible that some attempt will be made to scatter bombs over coast cities although this is very doubtful, but when it is borne in mind that the United States is now building ships at

such a rate that before the end of this year we shall have floating upon the ocean more ships than the German submarines have destroyed since submarine warfare began, then it will be possible to realize that whatever danger there may come from submarines will be incidental; trivial in comparison with our ships production.

OHIO UNDER HER SCHEDULE IN BABY SAVING CAMPAIGN

Columbus, Ohio, June 11.—From the first returns that are coming in it is apparent that the counties and cities of the state must adopt a new course if they are to save their quota of babies under the "baby-saving" schedule previously laid down.

During April, the opening month, the death of children was reduced slightly, according to the report which has gone forward from the State Health Department to the Federal Government.

Deaths numbered 1,257, a saving of 199 as compared with the average month of 1916, upon which the quota was based. The state, however, should have saved 376.

Thirty six of the 88 counties saved their quotas or more, as did 32 of the 80 cities of the state.

Thirty two counties and 29 cities actually lost more babies than in the average month of 1916. Toledo was the only large city to save its quota, achieving a reduction of 24 in the death list.

Dayton saved six. Cleveland saved 20 out of a quota of 69. Columbus and Cincinnati saved none.

NEW OFFENSIVE IS FAST BECOMING FIERCEST OF WAR

Paris, June 11.—"German forces last night penetrated to within a mile of the Oise river, at Ribecourt," the French war office announced today. The enemy also reached the Aronde river, within four miles of Compeigne, representing a maximum advance of more than seven miles, but were hurled back at this point.

The French not only held the Germans on the west wing but retook the town of Mery.

London, June 11.—British troops, attacking south of Albert, between the Ancre and the Somme last night advanced nearly half a mile on the front of more than a mile and a half, Field Marshal Haig reported today.

"South of Morlancourt (three miles south of Albert) our line was advanced last night, a depth of nearly half a mile, on a front of more than a mile and a half," the statement said. "We took 133 prisoners and 31 machine guns. Northwest of Morlancourt, south of the Scarpe and east of the Nieppe forest, we took prisoners and two machine guns in two successful raids."

By Henry Wood. With the French Armies in the field, June 11.—The new German drive between Montdidier and Noyon, is rapidly becoming the fiercest and most cruel battle of the war—into it the Germans apparently are determined to throw their last reserves, in a supreme effort to separate the allied armies and reach Paris before America's full participation wrests from them the last hope of eventual victory.

Already the steady flow of American, Italian and British divisions into France, coupled with the terrific losses inflicted on the Germans since March 21, practically has wiped out the numerical superiority with which the Germans opened the offensive.

It is certain that if the allies hold out two months longer the Americans at the present rate of arrival will give them an incontestable and crushing superiority.

As a consequence, the French are resisting in the present battle, with extreme energy, equalled only by the prodigality with which the Germans are rushing up their last resources.

No longer is it a secret that the French expected the present attack and were as fully prepared as effectiveness and material would permit. It is likewise known that the Germans knew the French expected and prepared for the attack, yet facing the heavy losses which such a situation necessarily must entail, the enemy unhesitatingly attacked. They rushed up reserves to replace their losses until more than twenty divisions (240,000 men) have been fed into the battle to date.

On both wings, where the French are doggedly holding out, villages like Courcelles have changed hands every few hours, day and night, since the battle began. The last carrier pigeons from Leplement, which has completely encircled, brought word that the French there were still holding out, although they now possibly have been submerged.

The Germans still are making their greatest effort in the Matz Valley for the purpose of reaching the Oise above Compeigne, thus forcing evacuation of the entire Noyon salient where, at the extreme northern point, Carlepoint Wood, on the east side of the Oise, and Mont Renaud on the west side, have to date barred the German advance into the Oise valley.

Military experts consider it most probable that the Germans will launch a second converging attack from east of Noyon, with identical objectives of attaining the Oise from the east and forcing evacuation of the Noyon salient.

From prisoners and other sources, it is established that the boches are suffering a severe crisis in effectiveness. Many companies got into action with only eighty or a hundred men. The wounded are forced to return to the fight as soon as they are cured. The losses in infantry officers are so great that cavalry officers are now substituted.

Among two hundred prisoners interrogated, a fourth were in the 1919 class, while many were in the 1920 class. The prisoners also included miners and expert workmen who heretofore had not been sent to the front. The fifth division of the Prussian guard, which is one of Germany's finest bodies of troops lost 50 per cent of its effectiveness during the last big battles.

South of Faverolles, 670 unburied dead were counted.

MERCHANT MARINE OF AMERICA TO BE WORLD'S BEST

South Bend, June 11.—America in 1920 will have a merchant marine of 25,000,000 deadweight tons, Chairman Hurley, of the shipping board, declared here last night in an address giving the most complete statement of the nation's shipbuilding program which has yet been made public. He was speaking to the graduates of Notre Dame university.

This great commerce fleet, Hurley said, the largest ever assembled in the history of the world involves the expenditure of more than \$5,000,000,000. It will bridge the Pacific for the transportation of the products of Japan, Russia, China, Australia and Orient, and will continue to promote America's trade with Europe.

"The vast merchant fleet we are building," said Hurley, "must become the greatest instrument of international probity, honesty and square dealing at the close of the war. It must become the vast and vital machine whereby America will prevent the oppression of the weak by the strong, the crushing of the right by might."

Hurley said he and Director General Schwab, of the emergency fleet corporation, expected the shipping output this year to exceed 3,000,000 deadweight tons, while next year the nation's tremendous new shipbuilding

LIMITED SERVICE MEN ARE CALLED

Washington, June 11.—The first call for limited service men was sent out by Provost Marshal General Crowder, today.

The call is for 9,000 limited service men who will be sent to the northwest to cut spruce for the airplane factories.

STRIKERS ALL GO BACK TO WORK

Cleveland, June 11.—Two hundred heaters and holders-on were back at work today in the American ship-

"The men decided to return at their building Company Shipyard, old pay," said J. P. McQueen, business manager of the Union. "They agreed to remain at work until the labor agreement board passes on their case."

The men walked out last night after they were refused a wage increase.

Local Items

Music for the big dance to be given at Kilkare park by a local committee Thursday evening, will be furnished by "Swindler's" "Orjazza" a five-piece collection of jazz artists.

WEATHER REPORT

OHIO—Fair and warmer tonight; Wednesday fair; cooler along Lake Erie.

Miss Blanche Dean, of the Stevenson road, who is a member of the graduating class of Xenia High School, has for her guests over commencement, Misses Edith Kelly and Dorothy Brown, of Wilmington.

Miss Louise Weaver, of Washington, D. C., is the guest of Mr. and Mrs. Gowdy Williamson, of the Jamestown place.

The Classified Ads serve both the new employer and you when they help you to get acquainted.

Seven-year-old Paul Earley of Bowersville, who is ill of heart trouble, which developed following three day illness with the measles, is in a critical condition at the McClellan hospital.

Mr. and Mrs. H. R. Wirthlin, of Norwood, are spending this week as the guests of Mrs. Wirthlin's mother, Mrs. William Anderson, of West Main street.

The Classified Ads are for the service of all who have real estate to sell and afford winning service.

The Buena Vista Thimble Club held a picnic at Kilkare park Monday evening. In spite of the threatening weather those present had a very pleasant evening. Thirty people enjoyed the picnic supper.

Miss Leota Stevens of Port William is spending a week in Xenia as the guest of his cousin, Edward Higgins, of Home avenue.

How She Banished Backache.
Mrs. Effie E. Kieppe, Averill, Minn., writes: "I was at a sanitarium three weeks at one time, two weeks another time, for rheumatism and kidney trouble and got no relief. On my return began using Foley Kidney Pills; found immediate relief; half bottle completed the cure. Always use when I feel pain in my back. Sayre & Hemphill."

Captain Charles L. Darlington of Camp Dodge, Ia., is here today as counsel for the plaintiffs in the suit of Delinger against The Miami Company, cernancy District.

A number of Xenia women went to Springfield Tuesday for the opening of the thirteenth annual convention of the Grand Temple of Pythian Sisters of Ohio. The Grand Temple degree was conferred on representatives and past chiefs, at the Pythian Temple under the direction of Mrs. Ruth Arnold and Mrs. Anna Young, past grand officers, Tuesday morning, opening the convention.

Sergeant Laurence H. Carpenter, of the United States Medical Corps, at the United States General Hospital, at Cape May, N. J., arrived home Monday afternoon, for a surprise visit to his parents, Mr. and Mrs. G. O. Carpenter of Jamestown. He was fortunate in securing a ten day furlough and came home without notifying his parents that he was coming. Sergeant Carpenter is delighted with his work at Cape May, and expects to go across the pond within a few weeks. His work will take him to No Man's Land, where he will assist in bringing in the wounded.

Mr. Thomas Smittle and son, Edward, desire to thank the friends and neighbors for their kindness during the sickness and death of Mrs. Smittle. Also for the beautiful floral tributes, and especially do we thank those who so kindly furnished the music for the funeral services.

CONGRESSMAN AND MRS. FESS ARE HOME

Congressman and Mrs. S. D. Fess arrived home Tuesday morning from Washington, and Dr. Fess will give the commencement address at Antioch college Wednesday morning. Dr. and Mrs. Fess and their sons, First Lieutenant Lovell Fess, of Camp Merritt, and Sumner Fess, who is training for the radio service at Cambridge, held a happy little reunion in New York last Sunday. Lovell recently was appointed to battalion adjutant of the Three Hundred and Twenty Third Machine Gun Battalion, making him the Major's right hand man. He expects to soon go overseas. Mrs. Fess went to New York last Thursday, and her husband and sons joined her in that city, and they spent a very pleasant time together.

BIBLE CONFERENCE

With a splendid array of talent, the Xenia Bible Conference is again announced for August 10-18, 1918. The meetings will be held as heretofore in a big tent on the lawn of the Seminary, West Third street. The program committee has been very fortunate in securing again, for this year, Dr. William Evans, of the Torrey Bible School, Los Angeles, Cal. He is not only one of the greatest Bible teachers in the United States, but he won the hearts of all who attended last year's conference. The complete program may be announced soon, but remember the dates, August 10-18, 1918.

Mr. and Mrs. Walter Linscott and children, who have been living in Miami, Fla., for a number of years, have returned to this city to live. The climate of Florida was not suitable to the health of either Mr. and Mrs. Linscott, and it was necessary for them to change their place of living.

Lieutenant B. R. McClellan who was summoned into active service in the East last week, has been made a member of the staff of Bag Hospital No. 10 at Fox's Hill, Staten Island, which was opened Monday. This is a 1000 bed hospital.

NOTICES

Copy for notices to appear in this column must be furnished before 10 a. m. of day of publication.

The stated meeting of Aldora Chapter, No. 262, Order of the Eastern Star, has been postponed from June 11th to June 18th.

Ladies' Aid Society of Old Town will hold a lawn fete at the home of Wm. Randall on Clifton Pike on Thursday evening, June 13. ad6-12

Workers for Red Cross will meet Thursday afternoon at the home of Mrs. Delbert Keiter in White Chapel neighborhood. All are urged to come and do their bit. 6-11

The Ladies' Aid Society of the Lutheran Church will meet at the home of Mrs. L. Urschel, of East Church street, Thursday afternoon.

The Classified Ads carry the stories of the work-seekers—stories rather eagerly read, nowadays, by business men.

Misses Mary Crow and Hester Norckauer have both secured positions in the paymaster's office of the N. C. R. in Dayton.

Mr. and Mrs. G. Val Simms of Spring Valley received a telegram yesterday announcing the birth of a daughter, to their son-in-law and daughter, Rev and Mrs. M. G. Boyce, (Katherine Simms) of Florence, Col. The baby was named Laurel Vineote.

The Classified Ads represent the Expressed wants and quests of the people and Unexpressed Wants are rarely satisfied.

The McClellan Y. P. B. meets at the home of Mr. and Mrs. Ziegler, Friday evening, June 15.

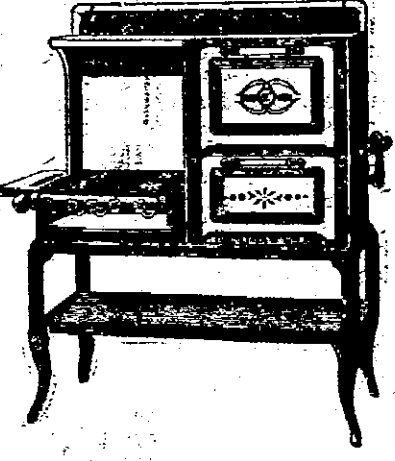

The A. B. and C. Classes of the Junior High School will have a picnic at the home of Rosezella Harner, on Thursday, June 13. Those going will take the two o'clock car, with well-filled baskets. Crowd will be chaperoned by Mrs. Frank Dean and Mrs. Leroy Wolf.

The Comfort Kit Committee will work on kits for the navy at the Red Cross rooms all day Wednesday. The call is urgent, as the kits must be finished right away. All interested are urged to come. The work will not interfere with the regular Red Cross work.

DECLARES HE IS FAR FROM DEAD

"I am not dead."
This is what, Lester Stiles of the S. & S. Shoe Store, and manager of the Xenia Reserves ball club, wishes to convey to his friends, informing them that he is well and hearty and still able to eat three square meals a day.
The necessity for such an assertion grew out of the fact that a rumor of mysterious origin, as most rumors as well as fires, really are, was circulated Sunday, to the effect that Mr. Stiles dropped dead of heart trouble on West Second street. He was kept busy Sunday refuting the rumor to anxious friends who called his home over the phone and then breathed a sigh of relief on hearing his voice.

A representative showing of HART, SCHAFFNER & MARX SUITS, ranging in price from \$22.50 to \$45.00.
Strictly all wool fabrics.

ALADDIN'S MAGIC
HAS NOTHING ON THIS OHIO WIZARD
Discovers drug which loosens sore, touchy corns so they lift out
You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told to use a drug called feezone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with the fingers.
This new drug is the result of a noted Cincinnati chemist. It is a sticky substance which dries the moment it is applied and is said to simply shrivel the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce of freezone will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus.
You are further warned that cutting at a corn is a suicidal habit.

THE OFFENSIVE VS. DEFENSIVE IN WAR.

It is a severe vigil that the allies have been keeping in this war—never knowing at what moment a new attack might be opened, or at what point. It is impossible to tell for some time whether it is a genuine offensive on a large scale, or whether it is only a trick to feel out a weak point in our defenses, or a feint to induce us to send our reserves to the threatened point, and thus give the Huns a chance to deliver their real blow at some other point. On the whole it calls for a much higher degree of military skill and personal courage and resourcefulness to carry on a war of defense than a war of offense. The Prussian war lords have always known this, and that is why they invariably pursue offensive tactics, while pretending to be only defending their country.

The casual observer is apt to inquire why the allies don't take the offensive and turn the tables on the Huns. But that is easier said than done. The Huns have been organizing and preparing for generations, and their whole scheme is based on this doctrine of keeping the offensive, and fighting on their neighbor's soil.

Our troops are taking their share in all the fighting operations, according to their strength. Just how they are engaged or how fast they are being sent over, is not authentically stated. The common talk is that from 700,000 to 800,000 are there now, to help stop the new drive, and that the number will be a million by July 1st, and a million and a half by the end of the year—these being deductions from the estimates of the Secretary of War.

The Huns have thrown down the gauntlet of battle and the allies have taken it up, but the utmost the allies hope for is to hold the Huns in restraint until we can arrive in sufficient strength to strike the decisive blow. As Premier Lloyd George put it in a recent speech: "The collapse of Russia caused a yawning gap in the bridge, which has not yet been spanned by the coming of America, and until the span is reconstructed by America, Great Britain, France and Italy have to defend the gap."

That battles can be won in the end only by the army which takes the offensive is the significant declaration made by General Foch, commander-in-chief of the allies, in an important article just contributed by him to the London Weekly Journal.

WHAT HENRY FORD THINKS

Henry Ford, the well known automobile manufacturer, believes that the present war will be won by the side that at the last is equipped with the best machinery. Writing in the American Machinist, he says, in substance: "Half of the world's production of steel and coal comes from the United States; this would be decisive on the western front if it were converted into war machinery."

It seems out of place to send men with unprotected bodies, armed with rifles, against trenches of concrete, protected by barbed wire, machine guns and cannon, when they could go in small armored tanks with machine guns capable of fending off the enemy's machine-gun bullets and shrapnel fragments. (A war tank is an enclosed moving fort, propelled as a powerful automobile with men inside and sometimes cannon projecting.) It would be possible to produce such two-man tanks, if standardized, at the rate of 1,000 or 2,000 a day and within three months enough could be made to stretch over the whole western front at intervals of 18 feet. Because of the advantages accruing from the use of the machine two men in one of these tanks would be equivalent in offensive power to 50 armed with rifles.

Mr. Ford says to get the best out of the factories, those at the their heads must know men and sincerely try to treat all employees fairly. Money alone will not hold men to their work if conditions are not what they should be; worth-while things of life appeal to them more strongly than money. They must have something in the plant, in the business, that they can tie to and look forward to. Labor troubles are of frequent occurrence in war plants engaged on war work, because no hope is offered for the workers; they know that the business is built on a speculation for quick profit and that it will not endure.

The Ford plant has been able to increase its production for war purposes

because of the willing co-operation of the army of workers; instead of striking or discussing wages the men have turned eagerly and willingly to every task that has been set for them. Most of the credit for the rapid progress made in producing ships, tractors and aeroplane parts is due to the men who work loyally and efficiently because they know that the company is not after war profits from the work done.

GREENE COUNTY BOYS WILL BE SEEN ON SCREEN

Sammies to the number of 30,000, including the sun-browned, well-trained lads from Greene County, will all be in this city at the Opera House Thursday, Friday and Saturday June 27, 28, 29 in the film "The Remaking of a Nation" which shows Camp Sherman boys in action.

The popular film will be shown here under the auspices of the Red Cross. Its coming to this city is a rare treat to the Xenia and Greene County people as the picture has been shown only in some of the larger cities.

Of a particular local interest will be the picture of the Xenia boys marching before the camera, drilling, boxing, wrestling and doing numerous other things that claim the attention of the soldier boys of Ohio's big camp. And they can be recognized too, many of the local lads being seen on the screen during the presentation of this picture.

Frank Hurley, local man who saw the picture in Portsmouth, last week, had a good time in picking out the Greene county boys as they flashed on the screen. He saw his son, Forrest Hurley, in the brief showing of the 330th Infantry Band and he also saw the tall form of Paul Evers, Champion grenade thrower of the division, as he mechanically bombed away in practice session. He is also sure that one lad who was pummeling away at Johnny Kilbane in the squared-ring was none other than Michael Leahy, another Xenia lad, with Company F, of the 330th Infantry.

This great picture brings home to the folks back here the sort of thing our boys have been going through at Camp Sherman in preparation for the drive against the Hun. A detailed picture-story of the way the boys are being prepared for the great conflict is shown in this film.

Major General Glenn, Major Eric Fisher Wood and other camp notables are shown in "Close ups", among them being Johnny Kilbane, famous featherweight boxer, who is boxing instructor at the camp.

COUSIN OF MRS. CHARLES ADAIR IS HONORED IN FRANCE

Lieutenant Walter Flannery, of Pittsburgh, first American soldier to receive the French Croix de Guerre for exceptional bravery at the second battle of the Marne, is a cousin of Mrs. Charles Adair of this city.

Swimming the Marne under cover of darkness but with German bullets splashing all about him, Lieutenant Flannery effected the rescue of a captured and escaped French officer in a most daring and spectacular manner. The French officer had made his way from the German lines to the bank of the Marne opposite the Allied positions, and he was directed to conceal himself there until dark.

At night, with a rope tied about his waist, Lieutenant Flannery braved the dangers of the water and the German bullets and while enemy sharpshooters attempted to pick him off, crossed the river and returned with the officer. The rescue was an example of American daring and bravery and one of the most spectacular that has been perpetrated during the great conflict.

Because of his action, Lieutenant Flannery was decorated with the French Croix de Guerre, having the honor of being the first American decorated in that manner in this great battle. Impressive ceremonies marked the presentation of the medal which was made in the presence of a great company of military and while the guns of the two contending forces thundered applause.

Mr. and Mrs. Ralph Houston are the proud parents of a little son, Master Ralph Eagle, who has been suffering from a broken arm, is doing nicely.

Mr. A. C. Mendenhall sustained a serious injury to his left ankle when a horse kicked him last week.

Rev. Mont, of Cleveland, the new pastor of the Friends church here, began his work last Sabbath.

A baby daughter was born to Mr. and Mrs. John Burk Saturday.

Mrs. Louisa Carr was the guest of her brother, V. S. Whitel, of Waynesville, Saturday and Sunday.

TEACHERS IN THE XENIA PUBLIC SCHOOLS ARE NAMED BY BOARD

Teachers for the Xenia public schools for the coming school year of 1918-19 were appointed at a meeting of the Board of Education, on Monday night, the Board agreeing with Superintendent Patterson in all of his appointments.

There has been a considerable increase in salaries this year, the total increase amounting to \$4,575.72 over the teachers' pay roll of last year. Superintendent Patterson has found it almost impossible to secure men teachers, owing to the draft and the scarcity of teachers has made increases in salary a necessity.

The salaries of teachers retained from last year were raised according to the following wage scale, which will be used by the superintendent in retaining teachers in all the local schools.

"Salary for inexperienced teachers in grades 1-6 shall be \$500 per year."

"Salary for teachers under 1 who shall be re-employed for second year's service shall be \$600 for such second year's service."

"Salaries for all teachers after second year's service shall be automatically raised at the rate of \$50 per annum."

"A new maximum for teachers in grades 1-6 is planned. Tentatively, this maximum shall be \$800 per annum. It is the avowed policy of this board to raise such maximum as soon as possible thereof is made by legislative relief in school finance."

"A new maximum for teachers in departmental work in the Junior High Schools shall be fixed at \$900. This maximum shall not apply to the principals and male teachers of Ind. Arts."

"It is avowed that a new schedule of salaries for high school teachers shall be worked out, including a new maximum for female teachers, just as soon as financial relief for schools is afforded."

"Professional zeal manifested by attendance at summer sessions of colleges of education, extension courses, and the like, coupled with unusual teaching success shall be evaluated by the superintendent and on his recommendation may be made the basis of special increase in salary."

Six new teachers were retained by the board for next year, three of whom will fill places in the Central high school faculty.

Herbert Weaver, will take the place of teacher of science and assistant principal, vacated by the resignation of Charles H. Parrett. Mr. Weaver, who comes here from Pichin, in Clark county, is a graduate of Antioch in Clark county, is a graduate of Antioch with the degree A. B., and also has an A. M., in science degree from Wittenberg. He has had six years teaching experience, the last two years of which he has been principal at Pichin. He is married and will move with

his wife and child at once to this city. V. L. Faires of Bainbridge, has been retained as teacher in industrial arts or manual training, taking the place of Howard Trumbull, enlisted, and he will also be athletic coach in place of Mr. Parrett. Mr. Faires graduated in industrial arts from both Ohio University and Ohio State University, and this summer is taking a course in professional athletic coaching at Ohio State. He is also an athlete himself and is well fitted to direct this branch of school activities. Mr. Faires is also a married man.

Miss Mabel McCurdy of Osborn, will take the place of Miss Katherine Schweibold, as instructor in mathematics. Miss McCurdy is a graduate of Mansfield high school, and received the degree of A. B., at Wittenberg, where she majored in mathematics. She also attended summer schools at Columbia University where she worked under Dr. Breckenridge, head of the mathematics department of that university. She has had six years high school experience lately at Bremen centralized school in Fairfield county. She was offered the principalship of Sabina high school this year.

Miss Margaret Cooper of this city will be library teacher. She received the degree A. B. at Muskingum. She will have supervision of reading of periodical literature in the library.

Miss Mary Crow of this city, a graduate of the class of 1917 of Xenia high school, has been retained as teacher of the third grade at McKinley school. She has completed a course at the teacher's college of Miami University. Miss Gladys McClellan, also of this city, graduate of Xenia high school in 1917, has been retained as sewing teacher at McKinley Junior high school. She attended the teacher's college at Miami and is also taking a summer school course there.

There has been a change in the colored schools. The senior high school grades being transferred from the East Main street building to the Lincoln school. This was necessitated by the fact that the East Main street building could not hold all of the senior high school pupils and during the last school term, students had to go back and forth between the two buildings. Under the new arrangement both the junior and senior high schools will be together under one roof at Lincoln building. Arthur Taylor, instructor in industrial arts, and a most capable teacher and manager, will be principal of both high schools. B. E. Lee, former principal of the senior high school has entered the army Y. M. C. A. service and will leave soon to take up that work.

The following is the list of teachers and their salaries, and at the end a list of expenses of operating the Xenia school system, and a comparison with last year:

APPOINTMENTS AND SALARIES 1918-1919.	
Central High School.	
M. R. Simpson, principal and social science	\$ 1,500.00

TWO MEN PAROLED FROM WORKHOUSE

Spencer White and Henry Cooper, both colored, were paroled from the Xenia Work House by the board at its regular meeting Monday. Both men will have to keep in the "straight and narrow" path, however, or they will be returned to that institution without further ceremony.

The regular report of Superintendent D. E. Crow shows that 36 prisoners were confined May 1st, that during the month 17 were received and 20 discharged leaving a total remaining in the institution at the present time of 33. Two of these females. Two prisoners, Adam Biggerstaff and Walter Lucas were discharged on the order of the committing court as was Ed. Scott, who was discharged on order of Judge Geiger of Springfield in order that he might enter the tuberculous hospital there. The following prisoners escaped. Herbert Worthington, Pearl Waugh, Ben Parker and Charles McKinney. Pearl Waugh was recaptured.

Man and Money.
A Fort Scott preacher, talking about riches last Sunday, told his people that it isn't a question of the amount of money a man has, but of the amount of man the money has.—Kansas City Star.

EAST END NEWS

Unity Court, No. 12, O. P. C., will please meet this Tuesday evening, at the home of Mrs. M. D. Hilliard, Hatfield Underwood, W. C. Ida B. Shields, R. of D.

Mr. John Middleton of Indianapolis, has been called here on account of the death of his sister, Mrs. Taylor, of Jamestown.

It is reported that Prof. Andrew Breckinridge, a former Xenian, is seriously ill with the dropsy, at his home in Indianapolis.

Miss Lucinda Femules has entered the Frederick Douglas Memorial Hospital at Philadelphia. She left Saturday. She will take a three year course in nurse training.

Mrs. Victoria Lane is reported on the sick list.

Mrs. Mabel Biggs, of Cleveland, has returned home from a pleasant visit with her brother, Mr. L. W. Clark and family.

Lost—A silk chochet bag at the Xenia opera house, last Friday night. Please notify Mr. R. E. Holmes.

Mrs. Letitia Lane of Columbus, is visiting her sister-in-law, Mrs. Victoria Lane, and daughter, Garretta.

It is expected that an officers' training camp will be established at Wilberforce. President Scarborough says that he is expecting two hundred men there soon.

SHAKE INTO YOUR SHOES

Allen's Foot-Ease, the antiseptic powder to be shaken into the shoes and sprinkled in the foot-bath. The Plattsburg Camp Manual advises men in training to use Foot-Ease in their shoes each morning. It prevents blisters and sore spots and relieves painful, swollen, smarting feet and takes the sting out of corns and bunions. A certain relief for sweating, callous, tired, aching feet. Always use Allen's Foot-Ease to break in new shoes. Sold everywhere, 25c.

POLITICAL ANNOUNCEMENTS

Ralph O. Wead of Yellow Springs authorizes the announcement that he is a candidate for the Republican nomination for the office of county auditor subject to the primary election August 13th.

VIOLATORS OF
FOOD LAWS MUST
ALL BE REPORTED

The Greene County Food Committee appeals to every patriotic citizen in Greene County to aid in the enforcement of the Federal food laws. It is the patriotic duty of every citizen to report any violations of these laws that come to their attention. The Food Committee can learn of violations only through the aid of the public. If you know of a restaurant or a hotel man who is not obeying the new order to sell no more than two ounces of Liberty bread or four ounces of quick bread to a person at any one meal, notify the committee and the matter will be investigated. If you know of a farmer who is still holding his wheat, it is your business to inform on him. Heretofore, the Food Administration has appealed to the patriotism of all directly concerned to obey the laws. The instructions from Columbus are now to report every violation to the Columbus office. The committee is now engaged in investigating three reports of farmers who are still hold-

ing their wheat. If the reports are found to be correct, the Federal Administrator at Columbus will take action in the matter. Those who have information to present to the local committee can communicate with any one of its members. The committee is composed of the following members: William Dodds, chairman; Carrie Geyer, secretary; Amos Faulkner, John Brannen, W. B. Bryson, and C. F. Ride-nour.

UNSIGNED LETTERS.
The "Readers' Column" of the Gazette and Republican is open to the free use of all subscribers, when their communications are properly signed. The signature will not be published, if you so request, but we must know who has written the letter. Do not fail to sign your letter if you wish it published. Simply notify us if you do not desire your name printed and if the letter is not of personal or libelous nature, it will be printed. The column is free for the use of the subscribers, and we trust that no one will hesitate to avail themselves of its use.
EDITOR.

MEMORIAL COMMITTEE
RENDERS THANKS

The members of the Memorial Committee of Lewis Post No. 247 G. A. R., in closing up the business pertaining to Decoration Day, feel themselves under many obligations to, and desire to publicly thank Col. J. P. Elton for the tender of the Home Band and Battalion, the Male Choir for their excellent music, the Business Men's Association, the Odd Fellows, the Knights of Columbus, the Boy Scouts, and all other societies and individuals who so kindly assisted in making the memorial exercises a success. Particularly do we want to thank the good citizens generally for refraining the decoration or our soldier dead from decorating the graves of their loved ones on the day set apart for thus conserving the flowers for that purpose in times of scarcity, and the Gazette for calling attention to that matter through the paper.
Memorial Committee.

Consecration Restrictions.
The Nazirite, during the term of his consecration, was bound to abstain from every production of the vine and from every kind of intoxicating drink. He was forbidden to cut the hair of his head or to approach any dead body, even that of his nearest relation.
—Numbers 6:1-21.

MAN WELL KNOWN
IN XENIA IS DEAD

F. B. Taylor, of Indianapolis, well known in this city, and who for 29 years made this city on his route as salesman for a candy manufactory, died last Tuesday at his home in Indianapolis. His death was due to pneumonia. He had been ill since last spring, but was confined to his bed two weeks prior to his death. Mr. Taylor was born near Old Town, and was 75 years of age. He was in business here for a time, and enlisted in the army at the time of the civil war, from this county. His wife was before marriage Miss Hildah Stevenson, daughter of the late Perry Stevenson of this county. They celebrated their golden wedding last fall. Besides his wife, Mr. Taylor leaves two children: Mrs. Luanna White and Wallace Taylor, both of Indianapolis. He was a cousin of Dr. Austin M. Patterson of this city, and his wife is a niece of Mrs. Elma Gowdy, of the Manhattan Apartments. Mr. Taylor was buried in Indianapolis last Thursday afternoon.

CARD OF THANKS.
Herbert Robinson wishes to thank the employers of the Xenia mills who so kindly assisted him during his illness.

COURT NEWS

Findlay M. Torrence, as secretary of the Ohio Retail Lumber Dealers' Association, brought suit in common pleas court Monday against the Pennsylvania Railroad Company, to recover \$1,500 damages for a trunk which he entrusted to the charge of the defendant company, and never recovered. In his petition he says that last January 22 he checked the trunk for Columbus. It contained, he said, souvenir programs and leather paper pad cases for the members of the Lumber Dealers' Association in that city. The trunk, he said, was carried to Columbus and taken from the train there, but that when he presented the check for it, the defendant company refused to deliver it to him, and that it was unlawfully diverted to its own use by the defendant. The trunk and its contents, the plaintiff says, were valued at \$1,500. M. A. Broadstone and McGrew and Laybourne, attorneys.

The Uniform Won Her Approval.
"Why, daughter, you never told me before that you loved this young man?" "Well, mother, I didn't know it myself until yesterday. I never saw him with a uniform on before."—Yonkers Statesman.

Everyday
Etiquette

"When invited to a friend's home for an informal dinner, how long should I remain after the meal is over?" asked Ned.
"An hour or two would be all right to stay, especially as you say it is an informal meal, advised his sister.

FLOWER MISSION DAY

The Greene County W. C. T. U. will celebrate their annual Flower Mission Day on next Thursday, June 13th. Exercises will be held and flowers distributed by the various local unions, as follows:
Jail 9:30 a. m., Effie Carter Union.
Work house, 10 a. m., A. C. Tur-rell.
Yellow Springs, Jamestown, Bowersville, Aley and Osborn Unions.
Infirmary, 1 p. m., Xenia, Anna W. Clark, Cedarville Jamison, Jamestown Willard, Ross Tp., and Bramlette Unions.
Hospital, 2:00 p. m., Cedarville, Bellbrook, Clifton and Wilberforce Unions.
Children's Home, 2:30 p. m. Mc-Clellan, South Side and Spring Valley Unions.
County Flower Mission Supt.

SPRING VALLEY
BRANCH ORGANIZED

Spring Valley branch of the Greene County Farm Bureau was organized last Saturday night under the direction of County Agent Ford S. Prince. Complete list of officers was elected as follows: President, E. J. Kelsey; vice-president, Ed. Evans; secretary, W. H. Morgan; treasurer, George Query; purchasing agent, C. A. Oglesbee; director L. C. Peterson.
The Beaver Creek branch of the Bureau will be organized at a meeting to be held in the Beaver Creek high school Tuesday evening at eight o'clock, and Beaver Creek farmers are urged to be present. A meeting will be held Thursday at Yellow Springs and Friday at Clifton. Saturday afternoon Xenia township meeting will be held in the office of County Agent Prince in the Federal building and Saturday night Silver Creek branch will be organized at Jamestown.

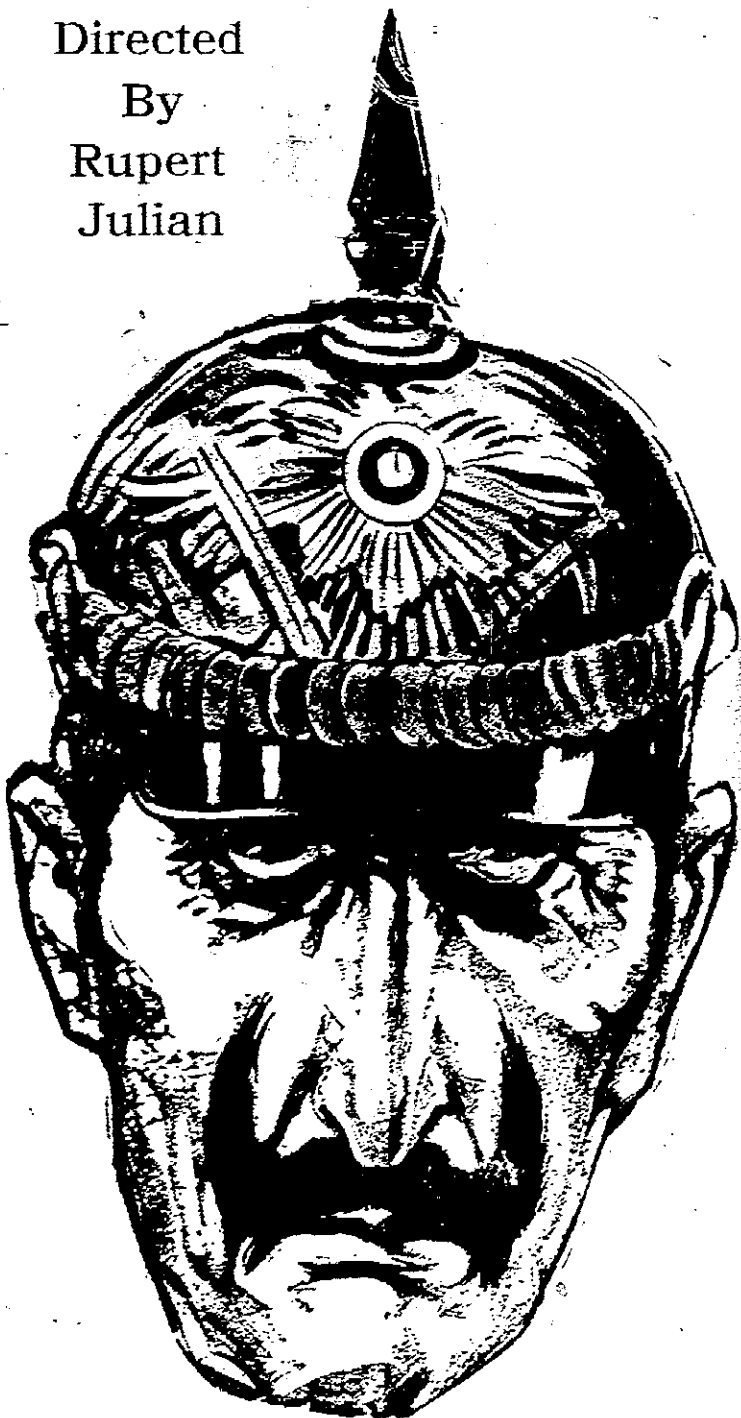

Procrastination.
Procrastination is the average man's greatest fault. Putting things off, waiting until tomorrow, the idea of delaying, has wrecked more individuals than any other one fault in business. One inactive, indolent, put-it-off man can stall the success of a whole organization; and he will.
